CORPORATE HISTORY

OUR JOURNEY FROM DUBAI TO THE WORLD — OVER TWO DECADES OF GROWTH

Feb 2002

FOUNDED IN DUBAI, UAE

Established by highly reputed shareholders as one of the first NVOCC operators to obtain a direct stack from DP World, launching our own Shipping Line from day one.

2002–2010

UAE → IRAN & CIS EXPANSION

Among the first to move NVOCC containers into Iran. Launched regular services to all CIS countries, backed by our sister companies' strong regional presence.

2014

EUROPE → MIDDLE EAST LAUNCH

Began operating between Europe and the Middle East, moving our own equipment in this sector — significantly extending reach and service capability.

CEO MESSAGE

A WORD FROM OUR CHIEF EXECUTIVE – VISION, STRATEGY AND OUR COMMITMENT TO YOU

Aydin Zamanian Zeinali
CHIEF EXECUTIVE OFFICER

PSS Lines Shipping LLC
Dubai, UAE

"Globalization has created an enormous opportunity for everyone. Our strategy — set forth by our chairman Mr Hamid Zamanian over two decades ago — states that moving with time has always been our motto."

We understand that transportation is the primary key for pricing of our customers' products. We minimize transportation costs by providing cost effective solutions for efficient logistics — at sea, in the air, and on the road.

Our path is clear and our minds are set to achieve our strategy day in and day out. With the thought of the future always in mind, we change our business models to adapt to the needs of the market as we go forward.

Aydin Zamanian Zeinali, CEO

CROSS STUFFING SPECIALISATIONS

OIL & GAS • PALLETIZED GOODS • TYRES

OIL & GAS

Experts in handling oil & gas equipment, machineries and pipes. From wellhead components to heavy industrial machinery, we ensure safe, compliant handling throughout the cross-stuffing process.

PALLETIZED GOODS

Efficient palletization and cross-stuffing of palletized cargo. We count, sort, rewrap and re-stack pallets as required for the onward container, maximising space utilisation and minimising damage risk.

TYRES

Specialist handling of passenger, commercial and OTR tyres. Proper stacking and securing techniques ensure maximum container load efficiency while protecting tyre integrity during transit.

CROSS STUFFING SPECIALISATIONS

AUTOMOTIVE & VEHICLES · PAPER, PRINT & PACKAGING · CHEMICALS & FERTILIZERS

AUTOMOTIVE & VEHICLES

Trusted handlers of many well-known automotive brand shipments. Vehicles are secured, strapped and protected to manufacturer standards during cross-stuffing operations at Jebel Ali.

PAPER, PRINT & PACKAGING

Careful handling of paper rolls, printed materials and packaging products. Weight distribution, moisture protection and anti-tilt stacking procedures ensure cargo arrives in perfect condition.

CHEMICALS & FERTILIZERS

MSDS-compliant handling of chemical cargo and bulk fertilizers. We follow strict safety protocols, segregation rules and labelling requirements at every stage of the cross-stuffing process.

CROSS STUFFING SPECIALISATIONS

FMCG & BEVERAGES • ELECTRONICS & HOME APPLIANCES • BUILDING MATERIALS

FMCG & BEVERAGES

High-speed consumer goods handling for brands including Aujan Group beverages. Temperature-stable, careful cross-stuffing with barcode verification and count reconciliation at item level.

ELECTRONICS & APPLIANCES

Specialist handling for electronics including Daikin HVAC units and Danfoss components. Anti-static procedures, shock-protective stacking and humidity control throughout cross-stuffing operations.

BUILDING MATERIALS

Handling of tiles, flooring, wallcoverings, raw materials for tiles and porcelain industries, and Knauf building materials. Fragile cargo protocols, edge protection and lay-flat stacking ensure zero breakage throughout the stuffing process.

PROJECT FORWARDING

HEAVY LIFT • BREAK BULK • OIL & GAS • INDUSTRIAL EPC • EUROPE  MIDDLE EAST SPECIALIST

PSS Lines has gained vast expertise in providing logistics services for large-scale industrial projects and Oil & Gas EPC contractors. We simplify project transportation with best solutions and hands-on expertise.

With specially trained employees and agents at major business hubs worldwide, we provide break bulk solutions for non-containerized cargo and complex shipments. Project transport between Far East, Europe and the Middle East is our specialty.

CORE CAPABILITIES

- **End-to-End Route Surveys & Feasibility Studies:** Comprehensive road clearance, bridge load, and port infrastructure assessments for super-heavy or over-dimensional loads.
- **Chartering & Vessel Solutions:** Full and part-vessel charters for break bulk, multi-purpose, and heavy-lift vessels (HLVs) across trade lanes.
- **Customs Clearance & Multi-Modal Transit:** Seamless cross-border handling, duty management, and integrated sea-to-inland heavy-haul transport under strict regulatory compliance.
- **Bespoke Packing, Lashing & Securing:** Engineered seaworthy packaging, marine cargo survey oversight, and dynamic load-securing compliant with international safety standards.

OIL & GAS

Experts in handling oil & gas equipment, machineries and pipes. We manage documentation, route surveys and heavy transport coordination from European suppliers to Middle East project sites.

VEHICLE MOVEMENTS

Trusted to handle automotive shipments of well-known brands. RoRo, flat-rack and container options available depending on vehicle type and destination requirements.
